

I have learned that the National Association of Broadcasters has petitioned the FCC to stop xm radio from broadcasting xm instant traffic and weather reports. I am a paying subscriber of xm satellite radio. The reason for this is because of the quality and vast selection of programming available to me that I can not receive elsewhere. Once again, I pay for this service and do not want the NAB to decide what I can listen to. Please reject the NAB's petition 04-160. Thank you,
John Tedesco
